PERFORMANCE & LUXURY

RESTORING BALANCE TO THE CATAMARAN UNIVERSE

What does it mean to be in balance, to stay in balance?

We think it's finding that perfect place where our needs and desires are met in just the right measure.

The Balance 442 delivers that right measure with its balance of speed, design, quality, and comfort.

“It was clear that Berman and Du Toit had spent
hundreds of hours to design what they felt was
the ultimate blue-water performance cat.”

- Multihulls Quarterly

SHE'S DESIGNED
FOR CRUISERS
UNWILLING
TO SACRIFICE
SPEED

Perfect balance is achieved only when all competing elements work in harmony. This is Balance Catamarans' design philosophy. It is a never-ending drive for perfect balance.

With Balance Catamarans, every design and building element - down to the smallest detail - takes into consideration how it interacts with every other element.

GREEN & STRONG

With her powerful 1 205-square foot-sail plan the Balance 442 ghosts along in 5 knots of wind while others are burning diesel. But when its blowing, furl in her headsails, reef her down, and fly. She is built to withstand the worst weather.

GORGEOUS INTERIOR DESIGN

With her owner-version configuration, the Balance 442 easily accommodates six people. And Balance's innovative salon table converts into a queen-size bed so you can always host another couple. It is also a place to hang out, read a book, or sleep when your partner is on watch. Her master shower aft is luxurious. The 442 sports 6'10" of headroom, boasts a large U-shaped galley, and offers more cabinetry than any performance catamaran of her size and class.

AWARD-WINNING VERSAHELM®

The new 442 delivers expansive sight lines, the result of technological innovations. The flow and openness between the main salon and cockpit are superbly designed with the VersaHelm® - a helm station that swings up and down with ease. The VersaHelm® has revolutionized all weather sailing and been copied by others. At Balance, our quest for perfect balance means we innovate, we create, we imagine better sailing experiences at every stage. And then we build it.

SPEED AND EASE OF OPERATION IN BALANCE

The 442 is fast, but how does she balance the need for speed with the reality of singlehanded sailing? Her self-tending blade jib makes tacking a simple matter of turning over the helm. All of her reefing and sail management takes place at the upper helm station.

With her dual furling headsails, electric winches, and mainsheet system that operates without a traveler, her ease of sailing is remarkable.

“Truly impressive...With the scaled-down 442, Balance fills out the family offering with dimensions and a price point that make their designs more accessible to a broader swath of the cruising market. The result is a performance catamaran that’s perfectly positioned to appeal to an experienced sailing couple looking for quality, livability, speed, and savvy systems, all in a true 44-foot package that is a kick to sail. “

FAST BUT ALWAYS GRACIOUS

Design Matters
With Every Balance

We take our quest for perfect balance into every detail, making the Balance 442 a sheer delight to live on. It is the most gracious liveaboard catamaran to be found today. Its luxury is in perfect harmony with its power.

BALANCE 442

There truly is “no place like home.”

She's a pleasure to move about on whether that's cooking, sleeping, lounging, bathing, dining or entertaining friends and family. There is a place to store everything on the 442, and a lot of places to just hang out and relax. You can pilot her up top in fair weather, pilot her down in the cold, you can lounge and read inside or outside, turn your tables into beds, into dining tables, into pleasure nooks for reading or watching the latest film.

Balance Catamarans builds a range of semi-production, handcrafted performance sailing catamarans of uncompromising quality, ranging from 42 to 75 feet.
